

expensive *technology reduces costs,*
sanction fees *maybe reduces personal involvement*

diminishing sponsorship finance

not enough countries want to organise events

air space restrictions
"virtual tasks" **hard to organise events**

are uninteresting to spectators *increased cost of sport* aging community, not recruiting new young pilots

not maintaining the quality of events

Sustainability of the sport *competition from other outdoor and aviation activities*

lack of communication between commissions and FAI head-office isolated thinking of the commissions

Ensuring long-term execution of projects

lack of growth, complacency **Regulatory authorities**

more technical aspects, less audience understanding

maintaining good relations with local communities

balance between **and land-owners**

technology and tradition

**Lack of funding
not changing**

Threats

Who or what might cause the CIA problems in the future and how?
