

Amendment from:

In order to be accepted in an FAI Category 1 event in which IGC/OGN Trackers are used, a glider must be fitted with an external antenna and the means for connecting that antenna to the Tracker. The Tracker will be provided by the Organizer, but the antenna, cable, and connector needed are the responsibility of the pilot or team..

To this paragraph

In order to be accepted in a FAI Category I event, the Flarm and the OGN Tracker (if used), the glider must be fitted with an external antenna and the means to connecting the antenna to the Flarm and on Tracker (if used)
