Toruń is one the most beautiful cities of Poland. Picturesquely located on the both banks of the Vistula River, at a site of intersection of ancient trade routes, it has been propagating its traditional economy and openness to the world for nearly 800 years. The gothic buildings of Toruń Old Town, which won the designation of World Heritage Site from UNESCO in 1997, present proof of Toruń centuries-old economic, cultural and intellectual ties with the leading cities of Europe associated in the Hanseatic League. People say: “Beautiful Toruń..”

...and are perhaps right. Because here they can witness they can witness the layout of streets of Toruń Old Town, which has not been changed for centuries, the most beautiful Polish panorama – of the illuminated part of the city seen from the Vistula River side, Nicolaus Copernicus birth house – the famous son of Toruń, silent arches of St. Johns Cathedral – where the great astronomer was baptized, the tomb of princess Anna Wazówna in Saint Mary church, The Town Hall of unique beauty, whose courtyard remembers the “Toruń Mutiny” drowned in blood in 1724...

Toruń – as all cities with rich history – has its own magical places.
