Subject: Fw: Proposals for inclusion on the Agenda for CVIL - Plenary Meeting 18 - 20 Februar

Mr. President

Hello Olivier,

the Austrian delegation has two points for the Plenary Meeting.

First:

2.11.5 Qualification Date

Pilot qualifications will be finalised no later than 30 days prior to the start of the competition.

What is behind all this ?

I think this not real make sense to have a time of 30 days before a Category 1 event.

In my mind it's enough to have the number of pilots named by the NAC to the organizer.

The second is:

Why can't a nation who has a current world champion, not send an additional member for this Team?

Like it is conducted in other areas. Skiing is one of them.

(If 6 Pilots allowed for each nation, the nation who has the current world champion is able to send 7 Pilots)

This additional member is not valid to score for the team.

(Which Pilots are for Team scoring is to setup before the first task is started)

I hope my comments are clear for you, because my English is not the best.

Kind regards

Herbert Siess

Delegate from Austria Aero Club
