

Report of the Barron Hilton Cup.

The year 2006 did not have a camp at the Flying-M-Ranch in Nevada, as this was the in-between year.

However, the competition for the winning flights continued very strongly. During the 2005 and 2006 flying seasons, up till now, show a total number of flights entered:
495 flights for a total of 287,936.0 km.

Since the contest is still continuing until March 14 in the Southern hemisphere, these totals may still change. The dates for this year's camp are: June 21 until June 28, 2007

In addition to the winners of the BHC, the World Champions in the traditional classes will also receive an invitation to the ranch.

Hannes Linke
Competition Director
