AE events – 2017

World cup and European championship – Saar Luis - Germany

CJ – Ron Miasnikov

9 freestyle teams and 8 freefly teams. Relatively small competition.
The competition rounds were not finished due to the weather.
See CJ report.

Main issues from CJ report

- Reduced number of judges (7)
- First time using new rules where difficulty is set before the first round.
- Judges training before the competition (one day is not enough for training and difficulty set and training jumps)
- The need to share a judging room with another event
- Competitors meeting – rules changes

2nd indoor world championship – Laval, Canada
CJ – Aliya Ananina

22 Dynamic 2 way teams

6 Dynamic 4 way

11 freestyle open competitors

8 freestyle junior competitors

Main issues:

- Number of dynamic judges – only 4 (the rules require 5)
- Complains from the AE competitors prior to competition start
- Behavior of competitors (sportsmanship code)
- Request to make a list of minimum requirements from future bidders (height of the glass, max speed, type of glass etc')

Proposals for changes to competition rules 2018

- **Outdoor AE –**
 - Adding Camera as a separate score (difficulty, execution, camera, presentation)
 - Small adjustment to the compulsories and difficulties tables
 - Competitors asked to publish the difficulty set for their jumps prior to first round.
 - One day of judges training is not enough when there are many teams, and difficulty should be set for all before the competition

For all compulsories:

- compulsories - when skies are not on top - 30% penalties.
- compulsories - wrong direction (video or performers) - 50%

Indoor AE -**Dynamic:**

- Order of teams for qualification rounds – reverse from last FCE.
- D2W can be judged by 4 judges only
- clarifications to speed round
- "Challenge the bust" – clarifications or canceling it.
- Rules for video reviews after speed round
- Semi finals will always be speed round, no matter how many teams.
- The tournaments brackets in the rules need to be fixed and updated

Solo Freestyle: competitor meeting after the competitions:

- Reduce compulsories round time to 45 sec.
- No music on compulsories rounds.
- Suggestion to split open/female category (again)
- Suggestion to split freestyle from "Air dancing"
- Discussion about length of free round with music.

- **Section 5 -**

As in last year, competitors complained the judges had not practice enough before the competitions, and that there was no dynamic judge on site while they were training to answer questions.

- Get different panels for freestyle and dynamic (4 more judges). Judging live is demanding.– this request was made last year but the rules hasn't changed.
- More professional judges – even if that mean Paying the judges.
- Second training day for the judges before the competition. (arriving a day earlier)

- Section 5 , 5.4:” *Unsporting Behavior includes cheating or unsporting behavior, including deliberate attempts to deceive or mislead officials, bringing FAI into disrepute, willful interference with other competitors, falsification of documents, use of forbidden equipment or prohibited drugs, tampering with (camera) equipment, violations of airspace, or repeated Serious Infringements. (2) When the severity of the infringement has been established and confirmed by the Jury, penalties will apply as follows:”* – penalties for unsporting behavior are not specified as they are for technical or Serious Infringement.

Future events

Skydiving –

2018 - Australia

Indoor –

April 2018 – First European championship – Voss, Norway

October 2018 – 3rd world cup – Bahrain

2019 – The dead line to submit bids for future competition was moved to December 1st, so at the time of writing this report, we do not know who are the bidders, if any. AE committee suggest to move the dead line one month backward to allow bid reviews by the relevant committees while changes can still be made.

Budget - Judges training aids

- In 2015, 2016 the committee asked for budget and at the end did not use it.
- Last year, the plenary approved 2000 Euros, to create dynamic clips to teach indoor judging courses. Most of the clips were made, tunnel time was booked to film the rest, an invoice was submitted but was not approved by judging committee and the treasurer.
