

## CIAM AEROMODELLING REPORT to FAI GC 2007 by President Sandy Pimenoff

The main target of CIAM activities during 2007 has been the development and preparation of new competition forms for the World Air Games. Namely, events which differ from traditional Model Aircraft competitions. Spectacular events, fascinating and entertaining contests, with emphasis on spectator and media appeal.

CIAM has worked very hard to develop these new contests, and we will continue to do so. Plans for selecting competitors for the WAG 2009 events are well underway, and I will conclude my report by a brief presentation of these new public and media-friendly competitions.

### **Model Aircraft World Championships 2007**

Free Flight for Seniors	Ukraine
Gliders with automatic steering for Juniors and Seniors	Romania
Radio Controlled Aerobatics	Argentina
Radio Controlled Soaring Gliders	Switzerland
Radio Controlled Helicopters	Poland
Radio Controlled Pylon Racers	USA

### **Model Aircraft Continental Championships 2007**

Free Flight for Juniors	Serbia
Control Line for Juniors and Seniors	Serbia
Thermal Gliders for Juniors and Seniors	Slovakia
Indoor Model Aircraft	Serbia
Space Models European Ch.	Slovakia
Space Models Asian Ch.	Baikonur, Kazakstan

### **Model Aircraft World Cups 2007**

Free Flight	Control Line	Electric Model Aircraft	Soaring RC Gliders
Thermal Duration RC Gliders	Space Models		

Last but not least I want to thank the FAI Office Staff and Secretary General for their comprehensive support. Thank you all!
