

## **FEDERATION AERONAUTIQUE INTERNATIONALE**

### **GENERAL CONFERENCE 2005**

#### **Report by Mr.Sandy Pimenoff, CASI President**

Since the GC in Madrid there has been a CASI Plenary meeting in Lausanne in May 2005. Present were 9 out of 10 ASC Presidents and 8 out of 10 national delegates.

One of the most important issues discussed was the future of CASI. CASI decided to discuss this item further at the next Plenary.

CASI web pages were discussed but no immediate need for changes. was presented.

The General Section Review Group presented its proposals for amendments to the Code.

An additional Sporting Code section covering Solar Powered Airplanes was presented by CIACA. Because the CIACA President, Mr. Pierluigi Duranti, was not able to be present the CASI decided to postpone this item to the next plenary.

The "three year rule" GS § 8.1.3.6.1. was defined as the period from the closing day of a Championship to the opening day of the next Championship.

This decision has met serious opposition leading to an appeal against the CASI decision.

The Tribunal to resolve this disagreement is scheduled to convene during the 2005 GC period.

The proposal to transfer the power of granting an extension to the seven days deadline for preliminary notice of a World Record claim from the CASI President to the ASC President concerned was accepted.

The CASI decided to return to the traditional schedule for Plenary meetings, and transfer them back to the GC. The 2005 GC was decided to be the first occasion to implement this ruling.

Finally, the CASI decided the 1st of July 2005 to be the date for implementation of the May 2005 decisions.
