

Annual Report

F5 Electric Flight FAI World Cup 2017

F5B Electric Powered Motor Gliders

We had 51 participants in 11 competitions. This is a good and successful result for this class. The winner of the F5B FAI World Cup 2017 is the title defender Gerben Van Berkun, Netherlands.

F5J RC Electric Powered Thermal Duration Gliders

1'303 participants at 26 international F5J competitions leave no doubts as to how attractive this new F5 Electric Flight class is.

Many thanks to all our organisers as well as to our World Cup Coordinators Wolfgang Schulz and Sotir Lazarkov. There was even more work this year – a good sign for electric flight.

November 2017

Emil Giezendanner
