

# **REPORT ON 2014 F2 (CONTROL LINE) WORLD CUP**

F2 World Cup competitions are flown in the classes F2A (Speed), F2B (Aerobatics), F2C (Team Racing) and F2D (Combat). Classes F2A, F2B and F2C have perpetual trophies; F2D does not.

All four F2 World cups were still successful although there was a small decrease in their total number of competitors and entries for the second consecutive year. A total of 596 pilots competed making 1166 entries. The number of pilots overall was 7% less and the number of entries was 10% less than last year.

F2D was again the most popular class with 252 pilots making 516 entries. Junior participation varied from class to class. Although there were fewer junior entries than last year in F2A, F2C & F2D, F2B had a increase of four.

Of the 63 scheduled competitions, 12 were invalid as only one nation flew; 3 were invalid as no results were submitted and four were either cancelled or not flown because of lack of entries.

The organisers were diligent in recording the FAI licence numbers. All but two of the nations involved in F2 World Cup competitions have uploaded their data to the FAI Licence database which made it easier to check queries.

The organisers of the 2014 F2 World Cup competitions were provided with master Excel results files and a Word Jury Report file for all four classes to facilitate the submission of the results and reports. Almost all of the organisers used these files to submit their results and Jury Reports. The files are also available on the F2 World Cup page of the CIAM website.

The results and Jury Reports were uploaded to the F2 World Cup page on the CIAM webpage at intervals throughout the season along with the cumulative results for each class. Previous years full results and Jury Reports continue to be available on the same page.

## **PROTESTS**

The Board of Judges nominated by the CIAM Control Line Subcommittee to rule on any protest concerning the World Cup is composed of Bengt-Olof SAMUELSSON (Sweden), Roland SURUGUE (France) and Peter HALMAN (United Kingdom). No protests were referred to the Board during the 2014 F2 World Cup season.

## **CLASS F2A (SPEED)**

In F2A, Denis SHLIAKHOV (UKR) won with a total speed of 890.4 k/ph from his three best competitions with Oleksandr OSOVIK (UKR) in 2nd place with 887.7 k/ph and Igor PAREEVSKIY (RUS) in 3rd place with 879.6 k/ph.

There were 22 scheduled competitions and 16 competitions contributed to the F2A results. Four competitions were invalid because only one nation entered each of them; one was invalid as no results were submitted; one was cancelled because of too few entries.

84 competitors from 22 countries recorded speeds in the 2014 F2A World Cup.

The best supported F2A contest in 2014 was the Kujawi Cup in Wloclawek, Poland with 24 competitors.

*cont/...*

The highest placed junior was Gennady EMELYANKOV (RUS) who placed 20th overall with a total score of 576.8 k/ph. There were 10 junior entries in F2A and each of them recorded speeds.

The best speed achieved during the year was by Luca GROSSI (ITA) with 301.3 k/ph at Lugo, Italy.

## GENERAL COMMENTS

The practice of running separate World Cup competitions over successive days makes economic sense for both the competitors and the organisers and is to be encouraged.

As has been noted previously, the running of multiple World Cup competitions for the same classes at different venues on the same date should be avoided wherever possible. It makes no sense to deplete competing numbers in this way. Organisers should respect historical dates, which have been used for many years for certain international competitions particularly those which are tied to variable public holiday dates.
