

REPORT OF THE PRECISION FLYING SUBCOMMITTEE

FAI / GAC MEETING LUXEMBOURG OCTOBER 2003

With effect from 23.January 2003 the Chairman Dr. Helmut Kern resigns all his functions in the Austrian Aero Club and in the FAI / GAC. The GAC President Pierre Portmann asks Heinrich Schawalder (Switzerland) to act as interim Chairman Precision Flying Subcommittee until the normal GAC 2003 annual meeting in Luxembourg.

The European Precision Flying Championship in Kirchheim - Ried (Austria) was a big success. There is no existing problem if the route planner is working according to the rules (checking each timed check point with the GPS on the ground !)

With all the experiences gained during the last two competitions, we had to rewrite the rules for this meeting, so that they will be based only on the use of GNSS Loggers.

There were a lot of discussions about the future competitions in Precision and Rally Flying. The result of these discussions between the members of the subcommittee and the Bureau members went into the amendments and we presented them to you there. We kindly ask for your approval.

It was a lot of work this year together with my Bureau member job. I have to thank all involved members for their good work and cooperation.

Luxembourg, October 2003

Heinrich A. Schawalder
Interims Chairman of the GAC
Precision Flying Subcommittee
