

2013 FAI CASI MEETING

ANNEX 11

Proposal to FAI General Section Chapter 7

Present Wording

7.3.1.1	Measurements on the earth's surface. The earth model for FAI purposes is the WGS84 ellipsoid.
---------	---

New Wording

7.3.1.1	Measurements on the earth's surface. The earth models for FAI purposes are the WGS84 ellipsoid, the FAI Sphere or model proposed by the relevant Air Sport Commission.
---------	--

Reason:

The decision in CASI taken in the meeting in Antalya was made without proper knowledge of all the record tables used in FAI record classes. Several other methods are currently used by ASCs for establishing distance records
